Society throws away over a million tonnes of clothing and textiles into the rubbish bins annually. Many of these items could be resold or remade into something new and exciting.

Be@one are an ethically conscious brand that use unwanted clothing and remodel them into something new, fresh and exciting. The fabrics used are taken from charity shops and industry waste. They are an animal friendly brand that do not use leather, silk or any other animal by-products. All the Be@one pieces are carefully constructed in the UK.

Be@one will produce two transeasonal collections per year for men and women of all ages and backgrounds. The individually modelled items will be available shortly from www.bat1.com For more information please email fashion@bat1.com.
